Currently offering **FREE SHIPPING** on all orders!

## AFFORDABLE

MaxLifeFoods WISE line of ready-made meals are one of the most affordable long-term freeze dry and dehydrated food options available. On average we save you about 40% from the costs of our competitors.

## LONG LASTING

Our unique packaging process removes the majority of residual oxygen through a vacuum oxygen removal and nitrogen flushing practice. Our meals carry a shelf life of 25 years. This will save you thousands of dollars long-term as the cost of food keeps going up. In an emergency, food may be worth more than diamonds or gold.

## DELICIOUS

We have combined both freeze-dried and dehydrated products together to ensure optimal taste, texture and nutritional value. Expensive ingredients such as vegetables are generally freeze-dried. Other ingredients like noodles and rice actually taste better when dehydrated.

## EASY TO PREPARE

Traditional food storage items can be time consuming and difficult to prepare. Hours of grinding wheat or soaking beans can be labor intensive and taxing, not to mention leaving you with a "meal" that's hardly appetizing. With our ready-made meals, simply add (preferably hot) water, wait 12-15 minutes, and you're ready to eat.

## SUPERIOR PACKAGING

Our meals are individually sealed, so when you open one of our stackable, square containers, you're not forced to hurry and eat it's entire contents like you do with #10 cans. Our containers have handles for easy portability, and contain many different meals, as opposed to a big can of wheat. In the same space as a washer and dryer you can store a year supply for a family of 6.
